

The logo consists of a large circle with a white border. The interior of the circle has a blue gradient, transitioning from a darker blue at the top to a lighter blue at the bottom. Centered within this circle is the text "SEAL TEAM" on the top line and "SIX" on the bottom line, both in a white, bold, serif font.

Midterm Sprint Presentation:

Artificial Intelligence

Cohort 11 – Study Group 6

Angela Flynn

EU Artificial
Intelligence Act

World-First Regulation

Bradley Ayers

Sora
by OpenAI

Text-to-Video Model

6

SEAL
TEAM
SIX

Kyle Hollett

Deep Learning
& CRISPR

Hacking our DNA

Bradley Ayers

Text-to-Video:

- User enters text prompt
- AI generates a corresponding video
- Not yet publicly available
- Image-to-video

OpenAI SORA

Bradley Ayers

How Sora Works:

- Deep neural network
- Learned from dataset of videos
- Matches keywords from prompt
- Well-crafted prompt is crucial

Bradley Ayers

Limitations:

- Complex scene physics
- Cause & effect logic
- Spatial details
- Body parts & gestures

Angela Flynn

Parliament's Priority:

- ✓ Safe
- ✓ Transparent
- ✓ Traceable
- ✓ Non-discriminatory
- ✓ Environmentally friendly

Angela Flynn

Four Risk Levels:

1. **Minimal** – Majority of AI / code of conduct
2. **Limited** – Interactive / requires transparency
3. **High** – Affect safety / continuously assessed
4. **Unacceptable** – Threat to people / banned

Angela Flynn

Effects on the Tech community:

- Fears of stifled innovation
- Accountability for carbon emissions
- Safe & trustworthy working environment
- People, not automation

Kyle Hollett

Deep Learning:

- Subset of machine learning
- Mimics the human brain
- Processes large datasets and algorithms
- Predictive analytics

Kyle Hollett

CRISPR – Hacking our DNA:

- Genetic engineering tool
- Targets specific genes
- Treats a range of diseases
- Potential to revolutionize medicine

Kyle Hollett

Deep Learning & CRISPR:

- Analyze DNA using vast datasets
- Predict disease & identify treatments
- Design more effective CRISPR experiments
- Massive potential for future treatments
